War Veterans on Bond Drive

RKO Will Bring Show to Canyon at 10:30 Morning of November 27

RKO is sending a Bond Rally group of entertainers to Canyon for a program at 10:30 o'clock on the morning of Nov. 27. All citizens of Randall county are invited to attend this bond rally.

A representative of the picture firm was here Friday to close arrangements. No special efforts have been made in other bond drives. It was not considered necessary to put on this feature in order to meet the quota, but it will be a stimulant to the patriotic citizens of Randall county to close the drive earlier than usual.

The program will be on the public square if the weather is fair. If the weather is bad, the program will be in the auditorium of the college.

A master of ceremony will be sent by RKO.

The program will consist of a band concert by a 35-piece military band; short talks by four returned veterans who were wounded in action; a group of musical numbers by army musicians; a short talk by a government representative from the treasury department.

Arrangements for the program were made with W. J. Wooten, and R. H. Wright, county chairman of the bond drive.

Buffalo Football Team Has Two More Games

The Buffalo football team has only two more games for the season, according to Coach Gus Miller.

The team will go to Lubbock Friday night to play the South Plains Army Air Field Wounded Commandos. This team is reported to be about on par with the Lubbock Army Air Field, which the Buffaloes defeated in a hard game in Canyon two weeks ago.

The Buffs will close at Abilene next week when they will play a combined team from the three colleges, Hardin-Simmons, A. C. C. and McMurry. None of these colleges are playing football this year, but have a combined team which has played a few games.

Two other games for the Buffs have been cancelled—return games with the Amarillo Air Field and with New Mexico University.

Past State Commander Ed Redell gave a short talk on the question of making a lasting peace at the end of this war.

Ross D. Rogers, gave an excellent address that compared and reviewed World War I and World War II, giving their similarities.

Farm Census to Be Taken in 1945

Confidential Reports on All Farms of County Will Be Taken Next Year

It won't be long now before a census-taker will be calling on the farm and ranch homes all over the nation. These census takers will be seeking information the government needs as it plans for agriculture after the war. The Census Bureau makes an agricultural census every five years. It's required by law.

This will be the fourth, five-year agricultural census to be taken under the Act of Congress approved June 18, 1929. Prior to the enactment of the five-year agricultural census act the regular ten-year census was used as authentic for agriculture.

The Census Bureau has requested the cooperation of the local agricultural committee in the enumeration work.

It will be remembered that the farm production figures tabulated for Randall county in the census of 1940 (production of 1939) were far below the actual figures for the reason that enumerators were unable to secure schedules covering all farms and all farm production.

This work will likely be even more difficult this time owing to the manpower shortage. It will require the cooperation of every one to secure a complete enumeration. The interests of Randall county will be best served by securing complete and actual figures on the 1944 production.

The actual census taking won't begin until January first. But already the people who will be doing the work are being trained for their big job.

Those who have looked over the farm and ranch schedule which will be used say it covers about all agricultural operations.

This will cover all food production including crops of all kinds and classes of livestock.

By the way, if you have any doubts about how the information you give will be used, we have this word from the Census Bureau: The census figures about your farm or ranch are strictly confidential. Only census employees can see them. And the records for individual farms cannot be used for purposes of taxation or investigation.

Leaf Rust Works on Wheat Crop

Grazing of Wheat Cut; No Permanent Damage If Winter Weather Favorable

A considerable acreage of wheat in Randall county is affected by fall rust. Large sections of many of the wheat fields have turned brown, and the cattle are refusing to eat this wheat.

The only material damage so far that is being done to the wheat is the loss of grazing, states County Agent W. H. Upchurch. The rust is the orange leaf rust and occurs in the fall when weather conditions favor its development. The warm days and damp nights this fall have been very favorable to the development of leaf rust.

With normal winter weather this wheat will stool out in the spring and not be greatly affected by the fall rust.

There is no practical treatment for leaf rust so far as is known by authorities on crop diseases, stated Mr. Upchurch.

It is claimed by some authorities that sulphur dusting will control the rust but is too expensive to be practical.

Experiments have been conducted which seem to indicate that the quality and protein content of wheat is affected by severe infestation of leaf rust.

Check Endorsers Must be Known Say Authorities

A representative of Secret Service was in Canyon Monday checking up on cases of passing stolen checks.

"Thousands of government checks are being issued every month, and every one who cashes one of these checks should know the endorser. If you do not, know the endorser, require identification," stated this representative.

Three boys were picked up in Amarillo Saturday who had passed government checks which they had stolen. Merchants had not questioned the boys, considering that government checks were always good. However, these checks may not belong to the person who seeks to cash them, and therefore, the business firm which cashes such checks may be out all of the money which they give to illegal owners.

"Know your endorser," is the only safe way in cashing checks.

Good Morning, Miss Future!

A SCHOOL OF VOCATIONAL ARTS

(One of a series of articles by J. A. Hill, President.)

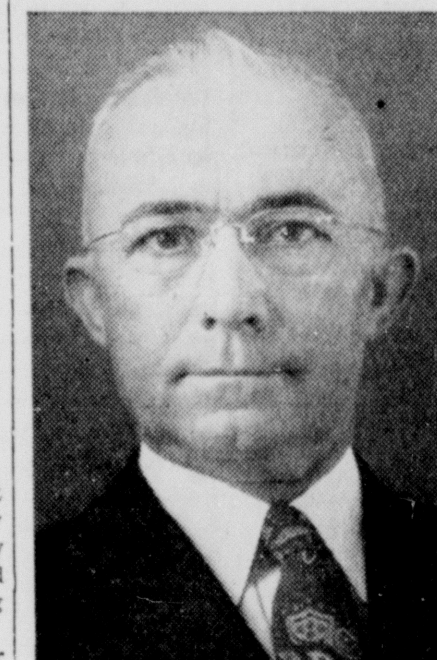

A decade or more ago West Texas State began to move toward a broader curriculum. The thought was to serve the educational needs of more people, many of whom could not go elsewhere for their education. This change seemed to meet approval and so the movement has gathered speed as recent rapid social, political, economic, and other changes have taken place.

In 1942, by authority of the Board of Regents, we reorganized our course of study by setting up three parallel and coordinated schools, as follows:

1. The School of Business Administration
2. The School of Education
3. The School of Liberal Arts

Simply stated, this means that our students are permitted to pursue courses of study and to specialize in various fields of learning without being required to prepare for teaching. The war has emphasized the importance of mechanical and vocational skills. The depression had already emphasized the need, on the part of every adult, for the ability to earn one's living. In the age ahead these factors will be more important than ever. The age of machinery and scientific invention is just well beginning. Already we catch glimpses of what is to come through the hundreds of devices, gadgets, discoveries, and inventions which the war has produced. In order to live effectively and happily in the years ahead men and women must know the tools, the implements, the machines that will condition their lives day by day, and must also know the sciences which create and apply same. He is entitled to wear the blue and gold framed Distinguished Unit Badge, the only army award worn above the right hand blouse pocket. His Bombardment Wing was recently cited by General de Gaulle, Chief of the French Armies, for outstanding bombing support of Allied ground forces in Central Italy.

Christmas Boxes for Disabled Vets Asked by Legion

Each citizen of the United States has a chance this year to make a sick veteran happy.

500,000 Christmas gift boxes are wanted for delivery to every wounded and sick fighting man or woman in a government hospital in the United States on Dec. 25.

All citizens in this vicinity are urged to join in making this a Merry Christmas for hospitalized service folk under the slogan "Christmas gifts to Yanks Who Gave."

The time and place to leave boxes will be announced next week. Also a list of suggested items will be given.

Beachhead News Sent By First Sgt. C. Ellison

First Sgt. Curtis F. Ellison of Co. F, 142nd Infantry, has sent a copy of the Beachhead News to the News. Company F is Canyon's own, although all but a dozen of the 83 men who left Canyon in 1940 have been transferred to other units.

The News was founded at Anzio Beachhead. 100 issues have been published. The issue of Oct. 15 was a Souvenir Edition and carefully censored so that the men could mail the issue back to friends in America. This edition has stories of the work of the 142nd through Italy into France, and now on to Berlin.

Many Canyon citizens have seen copies of this edition and are highly pleased to be remembered by the boys who have done such valiant fighting over there.

Election Aftermath

We are a better guesser than the President. Two weeks ago the Newsman told members of the staff that Roosevelt would win by 390 electoral votes. The President guessed it would be 335 votes. The fact that so-called border states all went for the President brought the apparent landslide of 432 electoral votes for the President.

Dewey followers have this satisfaction: Had a half million votes been switched in the border states, Dewey would have been elected. But that is little satisfaction to the Republicans in face of defeat.

The so-called revolt among the farmers did not materialize. The farmers were not nearly so mad at the President as they thought they were. When it came to casting their ballots, farmers throughout the South and southwest flocked to the polls and voted the ballot straight.

The President made the sanest statement that has come from the New Deal. Speaking on the eve of election, he called for vigorous, constructive opposition during the coming four years. During the past 12 years, some New Dealers have branded everyone who raised his voice against the President as a so and so Republican, or Communist, or Socialist, and something worse. The biggest problems that have ever faced America will now come before the nation. The President is right in calling for constructive criticism. Roosevelt's administration has been branded as a one-man government, bordering on dictatorship. Those who have ideas different from the President's must be free to express these opinions. We are quite sure that the President now feels that he does not know all of the answers to these weighty problems.

Well, Harry Seay, new chairman of the State Democratic Committee, has invited the Texas Regulars back into the party fold. He does not wish to punish this group, but will keep a weather eye on the leaders.

Just who appointed Harry Seay as judge and jury of the Texas Regulars? They are all Democrats, and have always supported the Democratic party so long as the party was run by Democrats on Democratic principles. Most of them were Democrats long before Seay took any interest in state politics.

The question is, what is Harry Seay going to try to do about the Democrats of Texas who voted the Republican ticket? Is he going to make the silly mistake of attempting to punish those Democrats who had the intestinal fortitude to go to the polls and express their belief that Roosevelt should not be continued in office for 16 years? That same sorry attempt was made when a majority of the voters of Texas refused to support Al Smith.

Take Randall county for instance: Roosevelt received 1439; Dewey 418; Texas Regulars 263. There are normally about a dozen Republicans in Randall county. The combined vote of opposition to the President in the county was therefore 681.

Is Mr. Seay going to "welcome back" the 263 Regulars, or attempt to outlaw the 418? He is going to have his hands full of misery and his path strewn with unknown rocks of difficulty if such a program is attempted.

Mr. Seay should not take himself so seriously. He should remember that Roosevelt was re-elected by the votes of Republicans in a large number of normally Republican states. The ballot is the only means by which free Americans may express their political will, and no man can tell any voter how he shall cast that vote when he goes to the polls, Mr. Seay included.

Cabinet makers are at work making various predictions as to who shall go and who shall stay in the President's new cabinet. The President should do a great service by releasing cabinet members who are so distasteful to the people. However, Roosevelt stands by his friends, and no one can safely predict what he will do.

Dewey made an admirable statement on election night when he called upon all Americans to unite in winning the war and the peace.

That's the big job for each and every American. We have our national leaders for the coming four years; we have a Democratic Congress at least for two more years; each and every citizen has a job that he must do; so let's get behind these leaders and get this terrible war over in the shortest possible time.

The News has stated a number of times that the so-called lend-lease was merely a gift to our allies. It is now revealed that England is about ready to publish its White Paper in which it will admit that she is bankrupt. This means that she does not intend making any effort to pay her debts. Most Americans will agree that it is cheaper for us to pay the war debt rather than fight Hitler alone. This could have happened if Hitler had conquered England and left Russia alone. But most Americans do not relish having England repudiate her debt to us in two wars, while she attempts to hold onto all of her world possessions. She could at least give the United States some of these possessions as a gesture to making a settlement.

True justice comes only from reason free from passion.

A pessimist thinks that anything that isn't wrong isn't right.

"We Owe It to Ourselves!"

A few years ago people joked about the Federal debt. Those who viewed the growing cost of government and chronic deficits with trepidation, were hooted down with glib arguments about "owing the debt to ourselves." Where are these easy going exponents of debt now?

Dr. Roy Blough, director of the division of tax research of the Treasury Department, says the problem of postwar taxation will be far more difficult to solve than the wartime tax problem. Predicting that the postwar tax problem will be "the most difficult tax problem in American history," he declared that the tax load promises to be so high that "any system will inevitably have restrictive efforts on consumption and investment. The most we can hope for is that taxes will be designed to produce the minimum interference with factors and forces leading to full employment."

Previous statements by other Treasury officials have stressed the importance of the postwar debt problem. Only two days before Dr. Blough's statement, the House of Representatives' special committee on Postwar Economic Policy and Planning, predicting a post-war budget approaching \$20 billion, pointed out that this would amount to a charge, direct and indirect, of more than \$550 of the average family of four. State taxes would be another \$350, making a total annual tax (if all expenses were to be met currently and deficit financing avoided) of \$900 on each average family.

No wonder the philosophy of "We owe it to ourselves" has gone into hiding!

The News is publishing a series of articles by President J. A. Hill regarding the future of West Texas State College. Every citizen of Randall county should read these articles, contemplate them, and then offer his full co-operation to the President in the effort to build a greater college in Canyon. President Hill is a veteran educator. He has spent 34 years as a member of the faculty, 26 years of which he has been President of the college. No man has a broader vision of the educational needs of Northwest Texas than has Mr. Hill. The College has had a wonderful influence in raising educational standards in the great section which it serves. Its influence will be greater in the years which are to come if the physical plant is increased to be able to meet new conditions in the new world after the war. Dr. Hill has the distinction of being the last member of the original faculty to continue in the service of his state. He may not be as young in years as he was 34 years ago when he came to Canyon, but he is richer in experience, and filled with a desire to be of service to mankind. No man is younger in educational ideals, and none is more ambitious than Dr. Hill to see the great educational plant which he heads fulfill the every need of this section of the Southwest. Citizens of Canyon and Randall county should unite solidly behind Dr. Hill to see to it that he is given every encouragement and every ounce of energy that is needed to put over the program which he is outlining for the future development of the institution. This college is his life's accomplishments. It is also dear to the hearts of the thousands of men and women throughout the nation who have profited by attending this institution. Furthermore, it is a vein of life to this vicinity. Thanks, Dr. Hill for these splendid messages, and we know that every citizen will uphold you in your splendid work. The work ahead is one in which each and every citizen of Randall county and the Panhandle country may and should take a vital part.

A few weeks ago The News called attention to the lemon that WPB handed the implement dealers. All restrictions were lifted on the sale of farm machinery. A survey showed that there were no farm machines on the market, and very few would be manufactured because of the regulations which restricted the use of vital materials. A meeting of dealers and manufacturers of farm implements was recently held. Farmers had been pouring it on the sore backs of dealers so hard that some were about ready to throw up their hands. Some demanded that rationing be continued in order to relieve them of this unjust criticism. The dealers could not sell farm machines unless they could secure them from the manufacturers; the factories could not produce these vital machines unless WPB granted them materials. This was putting the dealers in a hard spot, just as WPB contemplated. The bureaucrats were hoping that the dealers would demand a continuation of this rationing program. However, the dealers realized that asking such a continuation was playing into the hands of bureaucrats who wanted to perpetuate themselves in power. The dealers accepted the challenge, and are willing to be unjustly abused by some farmers for this situation over which they have no control in order to eliminate this one bad feature of government control. Let's hope that other branches of business will have backbone enough to run their own business when given the chance.

A. J. (Jack) Stricklin has been publishing the Terry County Herald, Brownfield, for 35 years. He is the recognized dean of Panhandle publishers. The Newsman happens to be second in time of service in this area. Here is what Jack says about his exalted position: "Rev. A. A. Brian, pastor of the First Baptist church here, has recently held a meeting in the city of Canyon. While there he of course met Editor Clyde Warwick, who in a round-about way stated to Rev. Brian, that like a rich old uncle whose folks are anxious for him to kick off, Clyde is kinder waiting for the day when he can become 'dean' of Panhandle-Plains publishers, by eliminating yours truly. Now we looked up what Mr. Noah Webster describes as a dean, and found that he is a guy smart enough in some instance to run the backfield of a college. So that winks us out, and if Editor Warwick can qualify, he can be the habes corpus compos mentis, etc., even if we are still knocking about down here in good old sunny Terry. We'd just as soon be the janitor anyway."

Most military observers now admit that they were over-optimistic in declaring that the war in Europe would be over this fall. General Eisenhower has not changed his prediction, and will not likely do so. The grim, blood fighting of the winter months will no doubt continue, and the German people hold on in desperation as they are fed propaganda by Hitler and his gang of murderers.

What the common people say is usually so—or soon will be.

He that would eat the nut must first crack the shell.

Wisdom is the ability to use knowledge.

1095 meals a year! Do you as a housewife have trouble in planning foods which produce variety for this staggering number? Perhaps the addition of variety meats to your family meals may offer a part of the solution to the problem. Variety meats include the heart, kidney, liver, tongue, sweetbreads, and brains. Since the heart and tongue are quite muscular, they require the same type cookery as the less tender cuts of beef; moist heat, a simmering temperature, and a long period of time. Liver and kidney from young animals are tender and may be cooked by dry heat such as frying and broiling. Brains and sweetbreads which are soft in texture require special treatment to firm them and to aid in the retention of a pleasing color. Each of the variety meats is an excellent source of building and protective foods; liver is outstanding in these respects.

Try some of these methods of preparation:

Sweetbreads: To precook them, wash them carefully and drop into boiling water to which one teaspoon salt and one tablespoon vinegar have been added. Reduce heat and simmer 20 minutes. Plunge into cold water and remove the membrane. Add the precooked sweetbreads to a rich cream sauce and serve on toast or biscuit or waffles. Or dip the sweetbreads into beaten egg, roll in fine crumbs, and fry. Or split them, spread with butter or oleo, and broil.

Kidney: Remove fat and tubes from the kidney—if it is from an old animal, soaking in cold water about 30 minutes will be desirable. Cut the kidney into cubes and use with an equal amount of beef in stew or in meat pie. Or grind and make into meat loaf or meat balls. Kidney is generally liked best when rather highly seasoned.

Brains: Precook as sweetbreads; prepare in any of the ways suggested for sweetbreads or scramble with eggs.

Liver: If the liver is from an old animal, the flavor may be excessively strong; to overcome this, drop the sliced liver into a pan of boiling water and allow it to remain about one minute before removing it and proceeding with the preparation. This process destroys some of the vitamin content and is not generally recommended. For those who are not fond of the liver flavor, try cooking with onions or bacon. Or braise the meat, add onions, tomatoes, and cubed celery, and cook closely covered until done. Or simmer liver five minutes, grind and mix with ground beef in meat loaves or meat balls. Plain fried liver, French fried liver (crisp), and liver loaf are acceptable to many people.

LIFT THE SPOT

Spots and stains on thick materials like mattresses, upholstery, pillows, heavy rugs and also on wall paper are often more successfully removed by drawing out than sponging out.

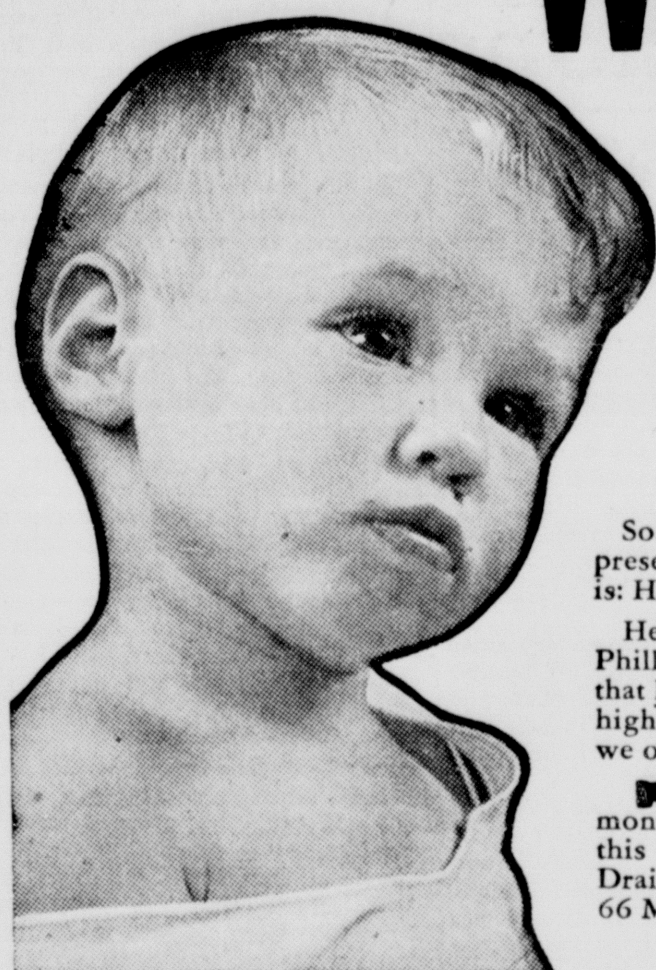

If possible start removing the spot promptly while it is still fresh and moist and use some dry absorbing material like corn starch, white cornmeal, talcum powder or salt can be used to absorb a moist stain. Magnesia powder and Fuller's earth, which can be purchased at drug stores, are also good materials to have on hand for this purpose. Shake the absorbing powder gently on the wet spot, and brush off with a soft brush. Repeat until surface moisture has been absorbed. Finally cover the spot with the powder and leave for several hours before brushing off. Pieces of white blotting paper may also be used to dry out spots.

If the spot has dried, make a paste of cold water and one of these absorbents and spread over the spot. When dry brush off and repeat until the stain disappears. If the spot contains grease make the paste of the absorbent and some grease solvent like carbon tetrachloride instead of water. Grease spots on wall paper can often be removed by this latter method.

A gentleman stopped before a little girl who was making mud pies. "My!" he exclaimed, "you're pretty dirty, aren't you?"

"Yes," was the reply, "but I'm prettier when I'm clean."

Wistful young America may not be able to understand why those long, lovely rides in the country are now only a memory.

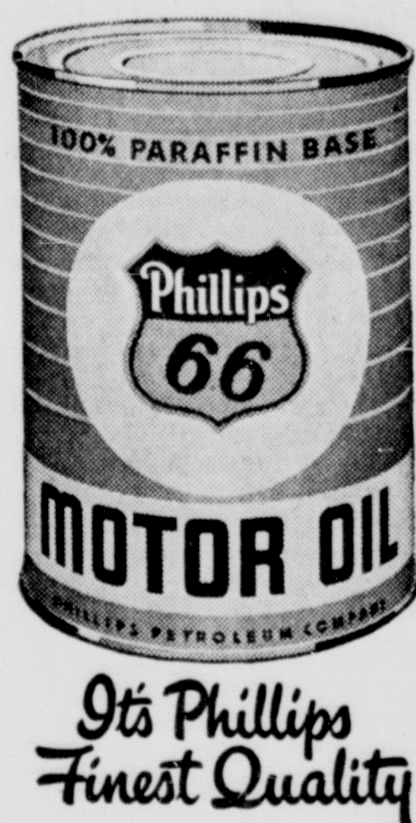

But their patriotic fathers, meeting the necessity for conserving gasoline and for prolonging the life of tires and cars, have reduced their driving to a minimum. They know that "Care for your car—For your country" is more than a slogan, that such care is important lest the nation face a wartime crisis in domestic transportation.

So now, more than ever, they want a quality oil to preserve and protect their motors. Their only question is: How can I tell which are the quality oils?

Here is one easy answer, in a very frank statement by Phillips: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to average motorists.

Experts recommend changing oil every two months. Especially, don't neglect the seasonal change this fall. Get rid of contaminated, summer-thin oil. Drain and refill with a quality lubricant. Ask for Phillips 66 Motor Oil.

James E. Ferguson was a stump speaker unsurpassed. His oratory ranged from resounding phraseology: "Fearless as any man who ever flashed a falchion in the face of a foe," to "I spit on the chip and double-dog dare him to knock it off."

Of a pompous opponent, Ferguson declared, "He has only two methods: blubber or bluster."

Crowds shrieked with joy as he described a scene wherein (according to Ferguson) an adversary made a frantic plea for a loan to avert disaster and "they tell me he actually got down and wallered on the floor like a cow with the cramp colic."

Frenzied supporters yelled, "Pour it on!" and Farmer Jim obliged by relating that the episode took place in a skyscraper and a conferee, noting the absence of a certain rich man, hurried to the phone and urged, "Get over here quick! So-and-so is on the seventeenth floor of this building, threatening to jump out the window if he doesn't get the money." Back over the phone (Ferguson narrated) came the reply, "Open the window and let the darn fool jump."

Master of ridicule and denunciation, he uttered the biography of a political foe in a sentence. The man had made a fortune through the discovery of oil and then had seen it swept away. Ferguson said of him: "Rich by accident; poor by ignorance."

But Jim Ferguson could reach dramatic heights—as when, in Houston during one campaign, a large part of the crowd tried to howl him down. He walked to the edge of the platform and, in measured tones, declared:

"Let the historian write it down that on this night came James E. Ferguson to the city of Houston, named for the liberator of Texas, and almost within sight of the battlefield where freedom was won—and was denied the right of free speech." Quiet descended.

This tribute, the day after his death, was paid to the former Governor by Judge J. W. Strode of Conroe. "I do not for one moment think it was necessary but if I am mistaken in this and if it was a part of the divine plan that he should ask for mercy at 2:45 p. m. yesterday when he knocked at the gates of the far beyond, I know he did so clear-eyed and with confidence, because he had extended mercy abundantly."

"Governor Ferguson was very, very human. Possibly, and without personal gain, he went too far for his friends. Possibly, at times, he was too uncompromising toward his enemies—but whatever you may think of any mistake made in his long, sad and serviceable career, I feel and know that 'in the court where his conscience shall sit as

Lyceum Program Canceled Until Future Date

John Temple Graves, scheduled to speak at West Texas State College on this Thursday, will not appear.

A serious emergency operation and a serious accident in his family made it necessary for his manager to cancel his engagements for this week. He will come a little later, probably about December 4, and it is believed that his program of informal meetings with students, as well as his formal address will be given as originally planned.

Graves was engaged to speak on some phases of the development of the South, and Type High was to

have presented him to interested students in an informal discussion of journalism and its place in modern life.

Longhorns Battle Canyon Players

Sanders Chooses Starting Line-up for First Game

For the opening of the season the Canyon Eagles will tangle with the Vega Longhorns tomorrow night at Vega. Probable starting line-up will be J. Spencer Winn and Don Standley, forwards; Charles Wright, center; and John Gill and Charles Taylor, guards. Second string men are Harley Hicks and Harold Erwin, forwards; Tommy Thompson, center; and Earl Gene Peppard and Kenneth Vaughan, guards. Other substitute squadsmen are James Meroney, Wilbert Long, Bobby Black, James Lair, Earl Lock Neff and Billy Abbott.

In a practice game last night in the Grade School gym, the Eagles played a group of college men who are coming out for basketball but did not make the regular college team.

Concerning the game tomorrow night Mr. Sanders says: "The boys are in fair condition but are by no means in top shape, still, I think we will win the game."

Don Standley and J. Spencer Winn, co-captains, said: "With some of our best men back from last year and the fact that Vega has lost many experienced players, we think we will win. Last year's game score was 37-21 in our favor, so our hopes are high."

CHEWING GUM

When a pretty girl chews gum, she reminds one of a cow chewing a cud, but the cow has a thoughtful look on her face.

With the constant chaw, chaw, chaw, of the jaws, all energy is diverted from the brain to the mouth. Poor mind, it has no opportunity to work. A "D" on the report card may indicate the result of too much chewing and too little doing.

Seriously, now, constant gum-chewing does cause nervousness and prevents proper digestion and concentration of the mind. It detracts from one's charm and often impresses acquaintances with the idea that one is sadly lacking in the rules of etiquette.

There may be places for gum-chewing, such as on picnics, at football games, or on hikes, but to chew it in school or at church—this is unpardonable!

Well, why worry about all this? One can't buy chewing gum nowadays anyhow.

Notes made by James Madison during the writing of the Constitution, which was done behind closed doors, were sold to the government in 1840 for \$30,000.00.

The Eagle's Tale

19th Year

Published by The Canyon News for Canyon High School

Thursday, November 16, 1944

Well, it seems that Velta Speer is having some competition with Ray McDonald. How about that, Johnnie Wallen?

Margaret Lair seems to be doing all right for herself. Three dates in three nights. My goodness, Margaret, how do you do it?

I wonder why some of the senior boys were feeling sorta bad Friday. Reckon kikapoo joy juice could be the reason? Could be!

A new twosome that was seen about town Saturday night was Dorothy Gafford and Charles Ray Kelso. Mary Lou Gunter, you'd better watch him!

Charlene Simmons was seen going down the hall with a down-hearted look on her face. Could Richmond Hales be the reason?

Was it just a rumor that was heard by Cal that Pauline Ruthart asked Malcom Gunter for a date last week?

Maybe next week you will be able to read about some new romances that have sprouted from Sadie Hawkins' week. Anyhow, here's hoping.

GUESS WHO?

Another personality of the senior class is an auburn-haired, quiet small lass.

The number after five is the size of her shoe.

She's not very tall, only five feet two.

"My peeve is gossip," and she raised her voice.

As a favorite drink four hundred's her choice.

She says her favorite color is white; Her favorite food is potatoes fried right.

Next week her name will be published for you.

Think it over and try to guess who! Last week's Guess Who was Nancy Wilson.

Math Maniacs Make Maddening Motions

What is it? Calisthenics? A class for the insane?

Such were the exclamations of a visitor to our school who happened to glance through the door of a certain class in room 29 the fifth period.

When the teacher began to wave her arms in the air violently and gaze up into thin air, the visitor's hair began to stand on end—but when all six members of the class gathered together and placed their hands in apparently irrelevant positions and pointed to objects in the air which were not there—well, that was just too much, and the poor visitor ran down the hall, gnashing his teeth, wringing his hands, tearing his hair, and wailing in despair.

"The suspense is torturing me—WHAT IS IT?"

Of course this little narrative is not entirely true, but Mrs. Jackson and her six solid geometry students, J. Spencer Winn, Tommy Thompson, Earl Lock Neff, Sandy Oliver, Ellen Root, and Bruce Albers do indeed make some motions that are, if not startling, at least amusing, in their imagination of large solids.

HOLIDAYS!

Hey, kids! open your ears and listen! At last has come a relief in the school work. Let's celebrate—shall we?

Supt. J. B. Speer has announced a change in the schedule of the Thanksgiving holidays. Holidays are from Thursday, November 23, to Monday, November 27. This is the wartime Thanksgiving designated by President Franklin D. Roosevelt.

Youth Center Is Main Objective

In order to help in the campaign for a youth center, J. Spencer Winn, president of the Student-Faculty Congress, appointed a committee to take a poll of the students in the ninth, tenth, eleventh, and twelfth grades. Questions included in this poll were as follows:

1. Would you be in favor of a Youth Center in Canyon High School, including table games, a snack table, social and folk dancing, and ping-pong, sponsored by different classes twice a month at night?

2. Would your parents allow you to attend? Would you want to attend? If you can and will attend, will you be willing to take an active part in planning when it comes time for your class to sponsor the activities?

3. If you or your parents object to social dancing, would you take an active part in other games at the same time other students were dancing?

4. Would you be willing to abide by rules and regulations set up by the Student-Faculty Congress?

5. Are there any more suggestions as to games or any kind of entertainment that should be included in the Youth Center?

Results of this poll were presented to the school board on Thursday night of last week. Another poll will be taken among the parents before any action is begun toward a Youth Center.

The results were as follows:
1. Yes—126. No—1.
2. (a) Yes—108. No—6.
(b) Yes—111. No—3.
(c) Yes—110. No—5.
3. Question improperly explained.
4. Yes—120. No—1.
5. Suggestions were movies, skating, and stage shows.

Speer Will Serve Exes as Officer

Supt. J. B. Speer of Canyon High School will serve as second vice-president of the Ex-student Council of all Teacher's Colleges in Texas this year. Attending a meeting held in Ft. Worth Saturday were representatives of 250,000 ex-students of Teacher's Colleges including Mr. Speer and Dr. Lee Johnson of West Texas State College.

The purpose of this meeting was to elect officers and to make War and Post War Plans for schools and colleges.

Clubs Will Have Combined Social

With all business procedure carried on in Spanish, the Spanish II Club met Monday and decided to have a party co-operating with the Spanish I Club. Suggestions for the party were: skating, a scavenger hunt, and a theater party. Spanish songs, led by Ellen Root, and a verb match, led by Sue Ann Moreman, closed the meeting.

T., her teaching experience began in Dalhart High School where she taught Home Economics a year and a half. Since then she has married and is now the proud mother of a charming four-months old daughter, Karen.

Not only is she a talented pianist but she also says she can carry a tune (in a sack). She is very fond of pecan pie and her favorite colors are red and yellow. Her pet peeve is people who put on airs.

Sophomores Hold Dogpatch Party

Meeting in the high school gymnasium, Tuesday, November 7, sophomores held their first class party of the year. Dressing in costumes that might be seen in Dogpatch or Skunk Hollow, the 45 students divided into five groups with Bill Davis, Frances Gooch, Dick Milford, Geraldine Small, and M. E. Rhoades as their captains for a scavenger hunt.

Returning first with their salvage were Frances Gooch, Nell Drake, Norma Jo Currie, Harold Jay Prichard, and Jerry Bailey. For a prize the group received a 1½ pound box of chocolate candy. After all the members returned ping-pong and ring games were played.

Roomparents attending the social were Mrs. Lena Tueck, and Mr. and Mrs. E. C. Prichard.

Refreshments of sandwiches, cookies, and pop were prepared by the students and Mrs. Emma Gene Jackson, sponsor.

Trustees Sponsor Annual Gathering

For their annual "get-acquainted-social" the school board of Canyon High School gave an oyster supper for their wives, the faculty and their husbands, the superintendent, the principal and their wives in the lunchroom Tuesday night at 7:00.

Ladies of the lunchroom served the oysters, cooked by Mr. Carl Hair of the Palace Cafe, along with a combination salad, French-fried potatoes, Tartar sauce and coffee.

Approximately sixty guests attended the supper and program which was the show "Kansas City Kitty."

Irrigation was started in America by the Mormons, on the edge of the Great Salt Lake.

Students and faculty of Canyon High School extend their deepest sympathy to Dorothy Gafford, Don Hickman, and Sarah Jo Hickman at the death of their brother and uncle, Billy Lee Gafford.

Heartfelt sympathy is also extended to Roberto, Antonia, and Juan Hernandez at the death of their brother, Benino Hernandez.

Grade Notes

Showing their interest and patriotism, students in Mrs. Roscoe Davis' second grade stood at attention around the flag pole while a sophomore committee raised the flag one day last week.

Under the direction of Mrs. Houston P. Doughty, the third grade music class gave for the fifth and sixth grades an assembly program composed of nine songs Friday morning in the library.

Third grade students of Mrs. A. K. Goodman are studying a unit on the Pilgrims and the origin of Thanksgiving.

New officers in the fourth grade Citizenship Club sponsored by Mrs. L. M. Cousins are: Sarah Colwell, president; Bennie Mac Abbott, vice-president; and John Miller, secretary.

Oden Jones from Mrs. T. W. Collins' first grade moved recently back to Winchester, Indiana.

Climaxing a defence stamp contest, the losing Blue Team gave the Red Team a party in Mrs. Robert Orton's first grade room Friday afternoon. Members of the Blue Team furnished refreshments of punch and cookies.

Bobby Ray Hardaway of Mrs. Mitchell Jones' fifth grade and his brother, Henry, of Mrs. Houston P. Doughty's third grade, moved to Dumas on Friday.

New students in Canyon Grade School are: Kenneth Eubank from Crosbyton in Mrs. L. M. Cousins' fourth grade; El Ray Ryeatt, Clarendon, Junior Sanford and Arley Wayne Bewley, Amarillo, and Bobby Ewing, Tulia, in Mrs. Hazel Atchley's fourth grade; Edwin Erms, Crosbyton, and Quinith Bewley, Amarillo, in Mrs. A. L. Walsh's fifth grade.

On the sick list in Mrs. Robert Orton's first grade was Barbara Kay Wagoner this year and Jearlyn Patridge who has been ill for two weeks.

On Monday a membership drive for the Junior Red Cross began in Canyon Grade School. Already several of the classes have reached their goal of 100%.

Smelly Socialite Presents Hawkins and Associates

After the Pledge of Allegiance led by Betty Ann Miller, seniors last Friday morning presented a Sadie Hawkins assembly program in which every class member took part.

Margaret Lair, alias Smelly Socialite, opened the proceedings with an introduction of guests who arrived at a party in her home for the purpose of crippling the men for the day's Sadie Hawkins race.

When all the guests had arrived, couples, Betty Brown (Sunbeam McSwine) and Don Standley (Hairless Joe), Frances Harp (Unreasonable Spouter) and Leroy Hutton (Talbert McGoon) did a "new mountain jitterbug step" and several couples danced the Virginia Reel.

Interrupting the hilarious "goings on" by clapping her hands and yelling, Unreasonable Spouter announced that the ugliest man had called the handsomest a liar and a brawl ensued among the men of the party. During the fight Gat Garsion (Bill Crow) and his Gun Moll (Mary Frances Colwell) entered and stole all the "Kickapoo Joy-Juice," which spoiled the party and caused everyone to threaten to go home.

Sam Starts Race

In the next scene Ol' Man Mose (Sandy Oliver) gave his predictions for the race and Marrin' Sam (Bruce Albers) shot his gun to start the race which was over at sundown.

Four marriages were performed by Marrin' Sam as a result of the race. These speedy girls and their victims were: Fish-lips Sweeney (Dorothy Scott) and Available Jones (Harold Erwin); Henrietta Hamiat (Ellen Sanders) and Talbert McGoon; Dellaah Dogmeat (Fawn Rogers) and Henry Hawgmeat (Earl Gene Peppard); Sally Etta Hawg (Mary Lou Gunter) and Sanflary Jones (Charles Ray Kelso).

Laura Lee Davis (Etta Mae Buttonhopper) was pianist for the program.

Seniors Portray Dogpatchers

Other members of the cast were Daisy Mae, Velta Speer; Lil' Abner, James Lair; Mammy and Pappy Yokum, Mary Canada and Billy Thurman; Sadie Hawkins, Ellen Root; Coonskin Hunter, Harley Hicks; Mr. and Mrs. Hawkins, Tommy Thompson and Mrs. Dan F. Sanders, sponsor; Unbearable Jones, Earl Lock Neff; Barney and Big Barnsmell, Bobby Black and John Gill; Earthquake McGoon, Charles Taylor; Haggy Ola Hawg, Nancy Wilson; her daughters, Zennia, Petunia, and Sunflower, Mary Nell Morris, Marilyn Johnigan, and Billy Ponder; Joan L. Sullivan, Sue Ann Moreman; Moonbeam and Kissable McSwine; Rose Hug and Mary Ann Bellah; The Monster, Joyce Sanders; Horseface Hornswaggle, Aubrey Smith; the Skunk Holler Sewing Circle, Vergie Haines, Lorene Seales, and Helen Woods.

When the LIGHTS go on again

"When the LIGHTS go on again"—magic phrase that signifies the return of peace! The end of war will end many another displacement in civilian life, but we somehow express ourselves most naturally in terms of light. For an abundance of light, above all else, means comfort, relaxation, modern conveniences, civilized life.

Your homes, at least, need not be "blacked out" these days. In fact, most electric dealers now stock bulbs in all common home sizes. Adequate lighting will cost little, but is worth many times its cost in terms of easier, more comfortable seeing. Make sure your light is right before the winter evenings arrive.

When you fill up those empty sockets, be careful to use the RIGHT SIZE bulb in each place. See that shades and diffusing bowls of all lamps and fixtures are clean. Replace dark shades by those having white or light linings. If necessary, rearrange lamps and furniture so that the light is closer to the point of use. These steps will help you make certain you get all the light you are paying for.

Good lighting at home for eyesight protection will help us all. It will help conserve our vision so we can carry our share of the war load, thus speeding the day of victory, when the lights go on again—all over the world!

STRAIGHT TALK

ABOUT THE

SIXTH WAR LOAN DRIVE

AS WE MOVE closer to victory, it wouldn't be surprising if you were saying to yourself — "What's the big idea of asking for all this additional money now? Isn't the war almost over?"

No sir, it is not! Not by a long shot. Of course, for many months now you've heard mostly about the war with Germany, where our greatest effort is concentrated. That's why many people have the idea that the war's practically over.

But make no mistake about it—nothing could be farther from the truth! The Japanese war is a tremendous undertaking, and victory will come high. We'll have to fight every inch of the way.

Everything Costs More—in the Pacific War

The European war is expensive, but almost everything in the Pacific war will cost more. Take transport costs, for instance: Because of the longer distances, the same amount of freight costs 25 per cent more when shipped to the South Pacific than to Europe. And it takes twice as many cargo ships in the Pacific to support a task force of a given size because turn-around time is twice as great!

More Planes . . . Tanks . . . Ships . . . Oil

In addition, we shall need more of everything. More B-29 Superfortresses that cost \$600,000 each. More P-47 Thunderbolts that cost \$50,000 each. More M-4 Tanks, with bulldozer blades, that cost \$67,417 each. More amphibious tanks—more aircraft carriers—more supply ships—more gasoline and oil than it took for the invasion of Europe!

Care for the Sick and Wounded

And lest anyone forget, we shall need more battalion aid stations—more clearing stations—more evacuation hospitals—more convalescent hospitals—more hospital ships.

For many, many years the sick, wounded, and otherwise disabled veterans will require medical attention and care. That's the least Uncle Sam can do in appreciation of what they've done for us.

Maintenance for Millions

Did you ever stop to think how much money it costs to maintain

the 11 to 12 million men and women in our army and navy? Whether the men are actually fighting or not, they must be fed, housed, transported from one training center or battle area to another, cared for in a hundred and one different ways. That all costs money and will continue to until the last man demobilized is back in civilian clothes.

In addition, millions of dollars will be required for mustering out pay, for various benefits and services voted by Congress to help the boys get started in civilian life.

These are reasons enough why patriotic Americans will want to buy heavily during the Sixth War Loan. But here are still more—

Winning the Peace—for Your Country

If we're to win the peace as well as the war, the cost of living must be kept down and the purchasing power of money preserved. A reckless inflation that would necessarily be followed by the catastrophe of deflation—with its unemployment, bankruptcies, misery and heartache—must be prevented at all cost.

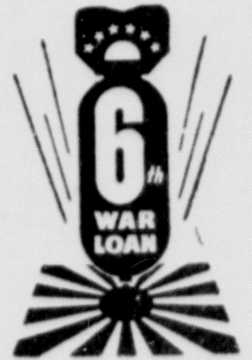

Let's make no mistake—a dangerous period lies ahead. The American people have nothing to fear, however, if they show in the future the same common sense they have shown in the past, and continue to put every penny over rock-bottom expenses into the purchase of more and more War Bonds.

Winning the Peace—for Yourself

Want another important reason? Yourself! There isn't a better or safer investment in the world today than War Bonds. In helping your country, you are also helping yourself! Never in our entire history has it been so necessary to save as right now. We'll need money, individually, for education, repairs, replacements, retirement—and we'll need a lot of it.

As you can see there are many reasons, important reasons, why our Government must have the financial support of everyone, and have it for many months to come.

Let all Americans do their part—for their own sake, for their country's.

All Of Us Blamed For Conditions of World War II

When America refused to take her place in the League of Nations; when we refused to become a part of the world's association of nations to stop war; when we continued selling war materials to Japan and Italy for their part as aggressor nations, we became a party responsible for World War II, is the opinion of Rev. E. D. Henson, pastor of the First Christian Church of San Angelo.

Rev. Henson, brother of Virgil Henson, spoke at the weekly luncheon of the Rotary Club Tuesday. Conditions following World War I were reviewed by the speaker. The Amistice did not bring peace. Nations went home to live their own lives. America said that we were through with Europe, and that they could fight all they wanted to. We even junked our navy and army, and relied upon our two oceans for our isolated position.

Then came the depression, which each political party has tried to pin on the other party. We went after customers, and sold them all they wanted—which is being used to fight us today.

"What about the next 25 years?" asked the speaker. If we do not do more for permanent peace after this war than we did in 1918-19, we will again be faced with a more destructive war. America must take the lead for permanent peace. We must be willing to live as a member of the family of nations. We cannot live in a world of vengeance.

But all aggressor nations must pay. Justice is fundamental in peace. We maintain a police force to guarantee justice, and we punish those who break the law. The same must be done with nations.

The school room is the vital factor in teaching justice to youth. Hitler gathered the children of Germany and taught them the things which he wanted them to believe. England paid the bill for the rise of Hitler. The greatest group of monsters that the world has ever seen is the result of Hitler's teachings. Peace will only come by punishing those who are responsible for this war, and cultivating the spirit of peace rather than that of war.
